

'QUICK GUIDE' FOR: 922IP / 932IP PORTABLE CD AUDIO INTERVIEW RECORDER

Connect POWER SUPPLY UNIT to rear panel. *Power supply & mains lead located in side pocket*

Open rear cover and remove microphones, placing them in between interviewer and interviewee.
Open front cover.

Press POWER button.

Wait until liquid crystal display shows the TIME and DATE.

Insert new CD's in to each empty slot. With printed surface uppermost.

Wait until liquid crystal display shows solid black 'circle' next to A, B and C (932IP only).

Press RECORD and await until the start alarm is silent before commencing the interview.

At any time during the interview you may press STOP. You may continue with the interview by pressing RECORD.

When the interview is complete press STOP.

Press EJECT and wait while the disks finalise - the liquid crystal display will show FINALISING PLEASEWAIT.

Disks will automatically eject when finalised.

Remove disks from recorder.
